

Our Digital Future

The 3rd transnational project meeting

UPDATE

The 3rd transnational meeting took place in the beautiful city of Volos, in Greece, on the 5th and 6th of July 2022.

The consortium met in order to discuss the milestones of the project that were achieved and plan for future steps. The objectives of the meeting were the following:

- assessing the stage of activities so far (infographics and video interviews);
- discussion on the app and the platform;
- planning the next steps of the project (lesson plans and other remaining tasks);
- monitoring the quality assurance, reporting and dissemination activities.

All participants were welcomed to the venue of the meeting and collaborated for two days on the predesigned agenda.

FIRST DAY

The meeting initiated with the marked progress of each partner and the consortium as a whole, sharing insights from the focus groups, about the first project result and planning the work on the final focus group report synthesis with potential improvements. In the next part, the consortium made a summary of the stage of the video production and the translations done by each partner in order to disseminate the materials created on a large scale.

SECOND DAY

On the second day, Assist, the project's technical partner, went through the project platform and agreed on the potential ideas that came as a result of the focus groups. The partners also discussed the dissemination status and the quality monitoring and evaluation, which are very important in making sure the project is going as planned.

The meeting ended with a summary of the decided action plan and next steps.

A REMINDER ABOUT OUR DIGITAL FUTURE

Since the beginning of the project, all the partners have been working on creating visual infographics, creating interview-based videos with lesson plans and developing a digital platform and one app as means of promoting the acquisition of digital skills amongst Europeans.
